

Desert Edge High School Academic Integration Project

Math and Financial Literacy Integration Project #1:

Desert Edge has recently become a [NAF Academy of Finance](#). The Career and Technical Education Department worked with the algebra extension teachers and developed Finance infused lessons into the Algebra classes. The teachers met together and developed an outline of lesson plans and resources that would align with existing curriculum maps.

The following titles provide links to the endowments website where free resources can be ordered to be used in the math and finance class curriculums.
